

### **Upon arrival at the conference**

Before the actual registration at the reception, each participant must submit one of the variants:

- confirmation of vaccination against covid-19, with the last dose of the vaccine (the second for two- dose vaccines, the first for single-dose vaccines) must have elapsed for at least 14 days
- a valid negative antigen test for covid-19, not older than 72 hours
- a valid negative PCR test for covid-19, not older than 7 days
- a certificate from a doctor stating that the disease has occurred not earlier than 180 days ago.

If necessary, it is possible to take the test on Friday morning in the local office of MUDr. Šimíčková.

### **During the conference**

In all indoor areas, it is mandatory to wear respirators or nano masks during the program (without exhalation valve, with a filtration efficiency of at least 94% = class FFP2 / KN 95), with regard to the exceptions provided for it. The respirator can be removed during the services provided and situations that do not allow it to be worn.

We recommend keeping the distances and please respect the organizers' instructions.
